

LARISSA RABELO LINHARES FROTA

Fortaleza, CE • +55 85 987090655 • larissarabelolf@gmail.com • linkedin.com/in/larissarabelolf

Frontend developer focused on JavaScript, with additional skills in TypeScript and the main framework being React. I am passionate about creating effective solutions and solving logic problems. I actively participate in building robust projects at Raro Labs using methods like GitFlow and Scrum, excelling in the development of reliable and efficient web platforms. I have over 2 years of experience and additional skills with Flutter and Ruby on Rails. In the backend, I support development helping in NodeJS and NestJS systems. I also worked as an instructor at Raro Academy, promoting a learning and teaching experience.

PROFESSIONAL EXPERIENCE

Raro Labs, Belo Horizonte, MG

May, 2022 – Current

Frontend Developer

- Significant involvement in the development of web platforms using ReactJS, TypeScript, and the JavaScript ecosystem
- Development of new features and accessible, generic components, including testing, for application-wide use
- Build server-side apps with NextJS and server actions, static generation
- Local state management using Redux, Context API, Zustand, and HTTP states managed with React Query and Axios. Implementation of dynamic and validated forms with Formik and Yup
- Creation of dashboards with dynamic filters and charts using React Chart, all integrated with APIs within a system following the Atomic Design pattern
- Extensively documented backend with Swagger and use of TDD whenever possible.
- Knowledge of Clean Code, Clean Architecture, SOLID, DRY, KISS, DDD, and general architectural patterns in the creation, maintenance, and scalability of services in RESTful APIs

Raro Academy, Belo Horizonte, MG

July 2023 – October 2023

Instructor and React Monitor

- Engaged in active monitoring, providing support, pair programming, and correcting activities, projects, and code exercises
- Instructor for synchronous classes with a class size exceeding 30 students
- Contributed to crafting a high-quality learning experience in front-end development
- Topics Covered: Jest, Styled-components, TypeScript, Problem Solving, Tailwind CSS, Storybook, React.js, Code Pattern

EDUCATION

Estácio de Sá University, Fortaleza, CE

IN PROGRESS - 2024

Associate Degree in Analysis and Systems Development

Raro Academy, Belo Horizonte, MG

2022

React Class Student with a certificate of excellence after finishing as the top student in the class

SKILLS

Frontend: HTML, CSS, React, Redux, Context API, Zustand, Storybook, Styled Components, SASS, Tailwind, Bootstrap, React Query, Formik, Yup, Zod, Jest, React Testing Library, Cypress, ShadcnUI, **Backend:** NodeJS, NestJS, MySQL, SQL Server, MongoDB, Postgres, AWS, Jest, Supertest, Express, Netfly, Zod, Swagger, OpenAI, RESTful API, Redis

TOOLS

Code version: Git, GitHub, GitLab, CodeCommit, BitBucket. Pipeline, CI/CD GitHub Actions

Design: Figma, Photoshop, Storybook

System: Linux, Docker, AWS
